Aspect of SMSC	What our extra-curricular programme develops:
Social	Acceptance and engagement with the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs; they develop and demonstrate skills and attitudes that will allow them to participate fully in and contribute positively to life in modern Britain.
Moral	Ability to recognise the difference between right and wrong and to readily apply this understanding in their own lives, recognise legal boundaries and, in so doing, respect the civil and criminal law of England.
Spiritual	Ability to be reflective about their own beliefs, religious or otherwise, that inform their perspective on life and their interest in and respect for different people's faiths, feelings and values. As well as developing a sense of enjoyment and fascination in learning about themselves, others and the world around them.
Cultural	Understanding and appreciation of the range of different cultures within school and further afield as an essential element of their preparation for life in modern Britain. As well as a willingness to participate in and respond positively to artistic, musical, sporting and cultural opportunities
In addition	Promoting all forms of equality and foster greater understanding of and respect for people of all faiths (and those of no faith), races, genders, ages, disability and sexual orientations (and other groups with protected characteristics), through their words, actions and influence within the school and more widely in the community.
